

## Introduction

It is widely recognised that the Food & Drink industry are currently experiencing numerous challenges.

With the ongoing effects of BREXIT, COVID 19 and the current predicted economic downturn, there is a realisation that recruitment, employment and learning and development is proving a challenge for most businesses, not least Food & Drink manufacturers.

With this in mind, Kersia UK are proud to be collaborating with Nottingham Trent University and National Skills Academy for Food & Drink to present a topical Webinar to assist your business.

The webinar, 'Feeding Our Future', aims to raise awareness of the government backed initiatives available within the industry that aim to assist F&D business with recruitment at grass roots and to recognise and develop talent within the existing workforce.

This event will last just over one hour and even if you are unable to attend the live event, a recording will be available for you to watch at a time suitable to yourself.
